American Modern Property and Casualty Insurance Company
Texas
Manufactured Home and Tenant
Rules

Rule Type:	Coverage
Rule Number:	C10
Version Number:	4.00
Page Number:	1
Rule Description:	Flood

1. Flood is a dwelling level coverage for Manufactured Home.

2. Flood is subject to a $1,000 deductible.

3. Claims will be adjusted using only one deductible per occurrence. If more than one deductible could be applied to the loss, the highest deductible will be applied.

4. The flood coverage minimum written premium shown in the rate table applies.

Rule Number:	C67
Version Number:	1.00
Page Number:	1
Rule Description:	Builders Risk

1. Builders Risk is a dwelling level coverage for Manufactured Home.

American Modern Property and Casualty Insurance Company
Texas
Manufactured Home and Tenant
Rules

Rule Type: Rating Factors
Rule Number: R14
Version Number: 1.17
Page Number: 1
Rule Description: Dwelling Loss Settlement Option

1. Manufactured Home included loss settlement option is ACV (stated value), with a replacement cost option available.

2. **ACV (Stated Value) -** the actual cash value at the time of loss, but not more than the amount required to repair or replace the damaged property, subject to conditions set in the policy form. Dwelling must be insured to market value (excluding land value).

3. **Replacement Cost** - the cost to repair or replace the property, subject to conditions set in the endorsement, with actual cash value settlement option for roofs 16 years or older. Dwelling must be insured to full replacement cost (excluding land value).

4. At the time of a claim, the insured is responsible for providing proof of the age of the roof.

American Modern Property and Casualty Insurance Company
Texas
Manufactured Home and Tenant
Rules

Rule Type: Territory
Rule Number: T01
Version Number: 5.00
Page Number: 1
Rule Description: General Territory Information

1. Latitude and longitude are determined for each dwelling based on the dwelling location address.

2. If an address cannot be validated, the latitude and longitude may be placed in the centroid of the dwelling location address zip code.

3. Flood territory is assigned to a dwelling using the latitude and longitude for the dwelling. If an address cannot be assigned with high confidence to a single latitude and longitude, the system will use the Secondary Flood Territory. The agent and/or the insured may provide a more accurate verified geocoded location to underwriting for reconsideration of the flood territory.

4. Tenant territory is assigned as one territory for the entire state.

5. All other territories are assigned to a dwelling using the latitude and longitude for the dwelling.
